

THE COLONOSCOPY ANTHEM

(For best results sing to the tune of 'Love is All Around'!)

Patient:

I feel it in my fingers - I feel it in my toes,
The scope is up my bottom - feels like a garden hose!
It's twisting through my bowel and causing spasm and pain,
Oh! Doctor please remove it, or I won't see you again!

Doctor:

You know I'll scope you and I always will,
I don't really care bout the way that you feel!
There's no beginning, there will be no end,
Until I've crossed every bend!

You will feel it in your fingers and feel it in your toes,
I do agree with you mate, it's like a garden hose!
It may twist your bowel and cause you spasm and pain,
But I'll take away your polyps, so that they don't form again!
